

# **Livelihood Planning Field Visit Template**

- → Visited districts
- → Visited Household

## **Small Group Meeting Observations**

We observed the SG meetings using Module \_\_\_\_

#### What's Working

- → Observation 1
- → Observation 2

#### What's Not Working

- → Observation 1
- → Observation 2

## **Recommendations for UPCM Training on Livelihood Planning**

The role of the UPCM in the LHP process is one of a guide/ coach, and that should be reinforced during the training for LHP.

- → Clarify purpse
- → Physical verification
- → Reaction to hesitancy
- → Clarity on 'edge-case' situations

#### Field Scenarios:

→ Scenario 1: Insert challenges observed in the field

Response 1: In an ideal case, the UPCM needs to be able to....

→ Scenario 1: Insert challenges observed in the field

Response 1: In an ideal case, the UPCM needs to be able to....

#### Open Questions:

• Remaining questions to be discussed with the team

#### **Recommendations for the Block Project Coordinator**

The BPC's role is to ensure that the UPCM can execute the LHP process as per the training guidelines. They should:

→ Explain various aspects of the BPC's role

## **Revisions of the Livelihood Planning Tool**

Different versions of the tool will have different utility based on the context. Highlight benefit and challenges of each one.

- → The <u>SG Level Tool</u>
- → The <u>Individual-Level Questionnaire</u>
- → A more <u>open-ended alternative</u>

## **Systematised Response to 'Edge-Case' Scenarios**

Each context has certain unforeseen situations. The Product Team needs to be aware and prepare for such situations.

→ For eg. BPCs should collate all the households that are not eligible for any of the livelihood suggestions

#### **Further Discussion**

→ Remaining discussion with all verticals
